

August 6, 1993

TO WHOM IT MAY CONCERN:

JBL Professional, in its capacity as Official Supplier to the 1994 Commonwealth Games, has engaged the services of Lightrix/Sound Source Ltd. as part of its team to supply Sound Systems for this world class event.

After careful consideration, JBL Professional is confident that Lightrix/Sound Source Ltd. has the expertise to be a valuable resource and to act as its local liaison. To this end, we have already supplied them with enough portable sound equipment to cover all of the pre-games events and as part of the contractual arrangement with the Commonwealth Games Society, they will be paid an hourly labor charge for providing the operators.

The main centerpiece of the games is the Saanich Commonwealth Place facility. There is an extensive audio system installation scheduled for completion by December, 1993. Lightrix/Sound Source Ltd. has been contracted by JBL Professional to design and install this on its behalf. Audio contracting is a very specialized business and JBL Professional is pleased to work with a company with enough expertise to deal with the many facets of a project of this size.

Very truly yours,

**JBL PROFESSIONAL**

A handwritten signature in black ink, appearing to read 'S.A.', is written over the printed name and title. The signature is stylized and extends to the right, crossing over the text 'Director of Sales'.
